Among the many short coming of the public school system in South Carolina in an insatiable lust for spending money. Public school districts constantly demand more funds through periodic school bond issues or tax levies. Thankfully, many of these provisions are being defeated by voters who are concerned with the waste of money in the public school system, or by Christians, who have a deep concern about the use of taxes to promote anti-Christian beliefs, evolutionism, humanism and immoral lifestyles such as homosexuality as normative behavior.

Paul Dorr has been more successful than anyone in the country helping to defeat these escalating bond issues when they come up for vote. Since 2001, he has led the charge defeating the humanists and secular educators in 52 out of 63 campaigns mostly in the Midwestern states of Iowa, Nebraska, Minnesota, South Dakota and Missouri. As a result, he is one of the most feared Christian men in the USA by the public school establishment.

On May 25, 2010 Aiken County taxpayers defeated a school bond referendum by 71% to 29% margin. Paul Dorr was their consultant. The size of the defeat has shocked both opponents and proponents of more taxes for public schools in SC.
